About the project

The ROSE/APANO Mixed Use Development is moving forward to transform and revitalize the Southwest corner of 82nd & SE Division in the Jade District where the old discount furniture store resides. Learn more about our plans and progress for building 48 units of affordable housing, a public plaza, cultural center and nonprofit offices. ROSE CDC and APANO invite interested stakeholders and neighbors to a community forum where the project design team will present the design progress and seek public input.

Interpretation and childcare available upon request by February 28, 2017
